Tango has partnered with Visix to offer intuitive and cost-effective options to enhance the workplace desk booking experience.

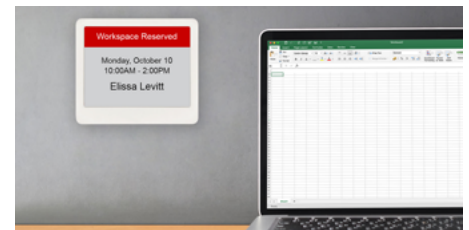

Visix Electronic Paper Signs (EPS) Offer Cost-Effective, Energy-Efficient Options

- Save time, money, and eliminate waste by replacing printed signs
- Lightweight, wireless, and battery-powered for convenience
- Long-life batteries only draw power when screens update and last an average of five years
- Choose from four sizes for desks, meeting rooms, and other shared spaces
- Combine EPS models for a unified digital workplace

Easy Installation, Integration, and Customization

- Signs work in either landscape or portrait orientation
- Use black and red ink for screen data, logos, QR tags, etc.
- Customizable templates can be tailored to your organization's requirements
- Organizations can also brand the signs with custom faceplates
- EPS signs can be placed virtually anywhere, as they do not require cabling
- Can be easily attached to desks, workstations, partitions, walls, or glass

Intuitive Digital Desk Signage to Support the Dynamic Flexible Workplace

- Easily determine workspace availability at a distance with color-coded signs
- Increase collaboration and productivity by knowing where colleagues are sitting and when including reserved or permanently assigned seats
- Use QR codes to check in, see upcoming availability, or book a space
- Seamlessly integrates with the Tango Reserve solution to display reservation data, availability, and QR codes

Affordable Digital Room Signs to Show Schedules at a Glance

- Show schedules outside meeting rooms, conference rooms, and collab spaces
- Calendar changes are updated automatically throughout the day
- Use single-and multi-room templates, or customize your screen layout
- Include QR codes on screen to book a room on the spot
- Use as digital name plates for offices in the hybrid workplace
- Mounting accessories included with every sign
